WARNING

- Read all instructions carefully before starting the installation.
- Professional installation is highly recommended.
- For safety, **ensure all caster wheels are fully locked** before mounting the display.
- **Two or more people are required** to lift and hook the display onto the stand.
- For any inquiries, please contact our customer support team.
- Illustrations are for reference only; actual product appearance may vary.

Installation Steps

1. Assemble the Side Supports

See Figure 1
Install the casters and M12 spring washers onto each main support.

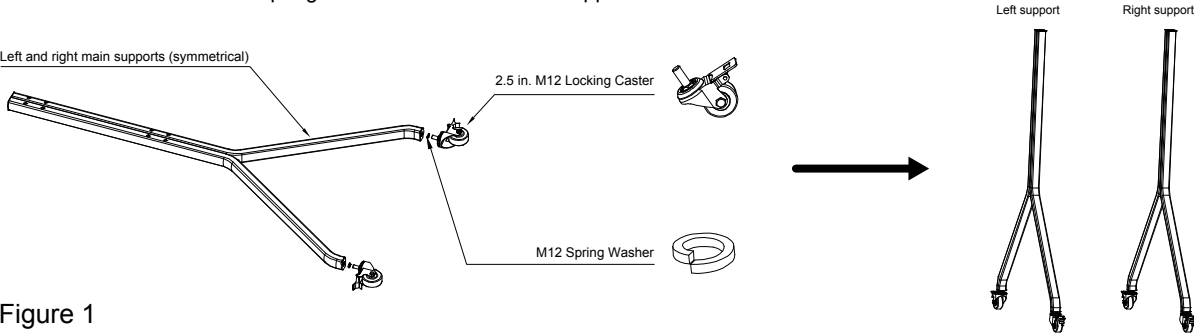

Figure 1

2. Install the Crossbeam and Tray

See Figures 2–4

1. Stand both side supports in an upright position.
2. Attach the crossbeam to one of the main supports at Position A.
3. Hook the upper crossbeam onto the side supports. Secure each side using 8 x M8 x 25mm socket head cap screws (with washers), then fully tighten the screws at Position A.

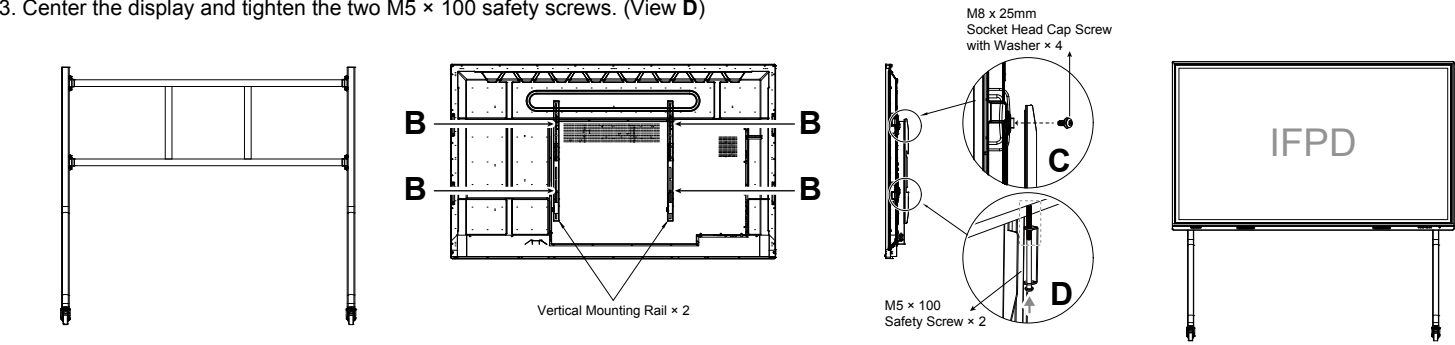

Figure 4

3. Mount the Display

See Figure 5-6

Two people are required to lift and mount the display.

1. Remove the four M8 screws from the display's back (Position B). Align the two vertical mounting rails with these mounting points (position B), then secure each rail at both the top and bottom using the four M8 x 25 socket head combination screws. (View C)
2. Lift the display and hook it onto the stand.
3. Center the display and tighten the two M5 x 100 safety screws. (View D)
