The FA-Series is an innovative, all-in-one Interactive Flat Panel Display designed to seamlessly adapt to various meeting spaces. This smart solution integrates a powerful ViiTalk-powered video conferencing system, featuring multiple AI camera options, crystal-clear speakers, and a multi-microphone array with voice tracking and noise reduction technologies. Available in four sizes (65", 75", 86", and 98"), this collaboration whiteboard runs on the latest Android and offers a wide range of customizable options. It delivers an immersive meeting experience, enabling seamless enterprise collaboration anytime, anywhere

Versatile Screen Size Options for Any Space

Find the perfect fit with 65", 75", 86", or 98" screen sizes. Equipped with multiple camera and microphone array configurations, the FA-Series adapts seamlessly to diverse environments, from small huddle rooms to large conference spaces, ensuring an optimized audio-visual experience for every setting.

65" **75"** **86"** **98"**

Customizable Multi-Range Camera Options for Meeting Room with Any Length

Experience the versatility and precision of MYSHER's AI-Powered Camera solutions. Available in single, dual, and triple-lens configurations with 48MP or 50MP sensors, these built-in cameras deliver crystal-clear visuals, intelligent tracking, and optimized framing for enhancing communication in any meeting environment.

| Single-Range Camera with 48MP | Dual-Range Camera with 48MP | Dual-Range Camera with Pro Lens | Three-Range Camera With Pro Lens |

. FA Series comes standard with dual 50MP cameras and supports customization with the above options.

Huddle or Small Conferencing Rooms

3~4 people

Standard Conferencing Room

4~7 people

Large Conferencing Room

12~20+ people

Seamless Focus, Capturing Every Angle

Equipped with dual 50MP cameras and Auto-Framing technology, the FA Series combines a wide-angle lens for full-room coverage with a standard lens that smartly tracks and frames the speaker. This ensures crystal-clear close-ups and dynamic visuals for a more engaging meeting experience.

80°

100°

Standard View Lens
Delivers clear and focused views of attendees in a standard view.

Wide-Angle Lens
Captures the entire room with ease.

Crystal-clear Communication with Advanced 8/16-Mic Array

Featuring a built-in 8-microphone array with an optional 16-microphone array, the FE Series delivers superior audio performance. Equipped with powerful DSP algorithms, this system ensures lossless transmission, echo cancellation (AEC), automatic gain control (AGC), and active noise suppression (ANS), AI De-noise, and more. Achieve crystal-clear, full-duplex voice communication with coverage extending up to 10+ meters, making every conversation crisp and intelligible.

Revolutionize Your Meetings with Intelligent AI-Tracking

Auto-Framing

Auto-Framing recognizes the number and positions of attendees, automatically adjusting to achieve the best angle based on the number of participants and their locations, providing a close-up view.
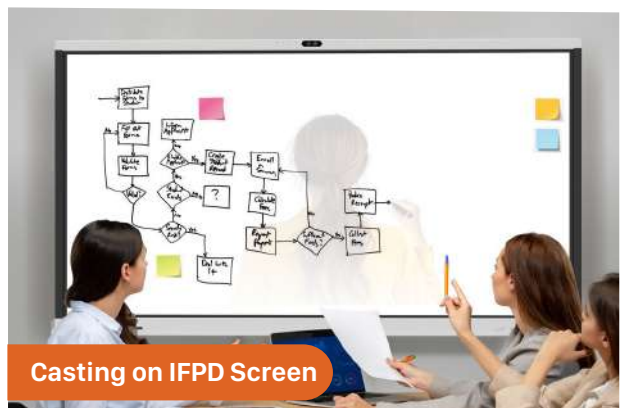

Speaker Tracking

With a built-in Multi-Microphone Array, speaker tracking continuously locates the sound source, providing a real-time close-up of the presenter. This ensures the speaker remains the center of attention, delivering a more immersive and engaging meeting experience.

Gesture Tracking

The intelligent Gesture Recognition feature allows real-time control of the video camera, including auto framing feature remote activation and other customized features.

Whiteboard Tracking

Casting on IFPD Screen

The FA Series' built-in AI-Powered Camera intelligently tracks and casts whiteboard content onto the IFPD screen in real-time.
It removes obstructions like hands while enhancing handwritten note visibility, ensuring a clear and seamless presentation experience.

# Enhance Your Video Conferencing Experience with Advanced AI Features

AI Beauty
Look your best in every meeting with intelligent facial refinement that enhances your appearance for a polished and professional look, ensuring confidence in any virtual interaction.

Background Blur
Maintain privacy and eliminate distractions with a smart background blur feature that keeps the focus on you while softening everything behind you, creating a cleaner and more professional meeting environment.

Face Mosaic
Protect personal identities and sensitive visuals with advanced facial masking technology that pixelates faces for secure collaboration, ensuring privacy during meetings and presentations.

Advanced Screen Sharing Technology

Powered by ViiTalk

Scenario 1 (Cloud Screen Sharing)

Exclusive Cloud Screen Sharing

Facilitate seamless collaboration with exclusive Cloud Screen Sharing! The FA-Series supports multiple screen-sharing methods, including sharing by scanning the QR code or using a web browser. Simply input the display code in any web browser to effortlessly connect, collaborate, and share your screen in ways you've never experienced before.

Chrome   Edge   Safari   Firefox

*. The above cloud screen-sharing methods are only available when using the FA-Series' built-in ViiTalk video conferencing software.

Scenario 2 (Local Wireless Screen Sharing)

Wireless Screen Casting Dongle

Thanks to the built-in dual Wi-Fi module, the FA-series ensures simultaneous screen-sharing hotspots and network connections. This feature enables instant screen casting through the external Wireless Sharing Dongle. Experience a fast and stable connection with minimal image latency, guaranteeing an exceptional screen-sharing experience.

***. T4C** - 4K Wireless Screen Casting Dongle (Optional)

Intuitive 4K Video Conferencing Software

MYSHER's IFPD comes equipped with ViiTalk Rooms 4K video conferencing software, offering AI voice-to-text translation, scheduled meetings, and cloud screen sharing. With AI-powered auto-framing, voice tracking, and gesture recognition, it delivers a premium conferencing experience while supporting SIP / H.323 compatibility for seamless enterprise collaboration.

| 1080P/4K Video Calls | Schedule Meeting | Speech-To-Text Translation | Cloud Screen Sharing | SIP / H.323 Compatible |

## Schedule Meetings with Ease

With ViiTalk video conferencing software, users can easily schedule meetings or reserve meeting room devices by scanning a QR code using their smartphone or via the ViiTalk client app on a laptop. This feature streamlines the scheduling process, making organizing and coordinating meetings hassle-free and accessible for everyone.

AI Speech-To-Text Translation

ViiTalk delivers real-time AI Speech-To-Text translation, instantly transcribing spoken words into on-screen subtitles during conference calls. Break language barriers, enhance collaboration, and make your discussions accessible to everyone. Upgrade your conferencing experience today!

Remote Side

Powered by ViiTalk

Remote Collaboration Whiteboard for Seamless Teamwork

Powered by ViiTalk, the FA-Series features an advanced multi-user remote interactive whiteboard, enabling seamless real-time collaboration across different locations. Users can write, draw, and annotate simultaneously using a variety of brush tools and palm eraser functionality.

Whiteboard pages can be instantly shared by scanning a QR code, ensuring effortless access to meeting notes and lesson materials. With 20-point touch on Android and 40-point touch on Windows, it delivers a highly responsive and engaging experience—making it the ideal solution for dynamic classrooms and productive meetings.

| Various Brushes | Shapes & Line Tools | Remote Multiple Users Writing | Palm Eraser | Share by QR Code |

Flexible Operating System Options

Supports optional i5/i7 OPS, allowing effortless switching between the Android and Windows dual systems. It ensures smooth data transfer and sharing while fully supporting multimedia presentation software, including PPT, Word, Excel, and whiteboard applications.
